COFFEE

Our beans are sourced from Jumping Bean in St John's and are entirely fairly traded, and organic where possible. We are proud to support Jumping Bean's initiative to use the EcO₂ roasting system, which reduces CO₂ by 85%. All our coffees are made from freshly ground beans and whole milk. If you prefer 2%, low fat, organic, soya or almond milk please ask.

House Mugs

Our 'House Mug' option is our way of giving a little bit back. We buy our mugs from a Thrift shop, or they are donated to us, and we give them a new life serving coffee to you. Each time you use a 'House Mug' we donate 5c to charity. Last year it was Indspire, a national Indigenous-led charity that invests in the education of Indigenous people throughout Canada.
